Gautam Sagar

FULL STACK DEVELOPER

gateaspirant@gmail.com https://gautam-portfolio-web.netlify.app/ https://github.com/codergautam900

PROFESSIONAL SUMMARY

Dynamic Full Stack Developer skilled in React, Next.js, Tailwind CSS, Node.js, Express.js. Builds scalable applications for data-heavy apps, focusing on responsive dashboards, RESTful APIs, secure authentication, and component optimization. Emphasizes scalability, accessibility, and agile collaboration.

TECHNICAL SKILLS

Frontend	**React.js, Next.js, Tailwind CSS, TypeScript, Redux, MUI**
Backend	**Node.js, Express.js, RESTful APIs, JWT Auth, GraphQL**
Database	**MongoDB, PostgreSQL**
Tools	**Git, Postman, Vercel, Docker**
Languages	**Java, C++, Python; OOP, DSA**

PROFESSIONAL EXPERIENCE

2023–Present **Full Stack Developer Intern**

Eshan College of Engineering, Lucknow, India

- Built full-stack apps with React/Next.js on 5+ projects; improved UI responsiveness 20%
- Implemented secure auth, optimized components via React Query; reduced response times 35%
- Reviewed code; mentored peers on React, Tailwind, scalable UIs

EDUCATION

2023–Present **B.Tech in Computer Science and Engineering**

Eshan College of Engineering, AKTU, Lucknow, India

GPA: 8.5/10

2023 **Class XII (PCM), 75%**

SMT Kamala Arun Inter College, India

2021 **Class X, 81%**

SMT Kamala Arun Inter College, India

PROJECTS

EmpathPass — AI-Powered Password Intelligence System

Full Stack React App **Live: https://empathpass.netlify.app/**

- Built validation dashboard with React/algorithms; boosted security 50%
- Added real-time feedback via Next.js, REST APIs, React Query

Blogshub — Secure Blogging Platform with Analytics Dashboard

Full Stack App | Live: https://blogshub.vercel.app/ | GitHub: https://github.com/codergautam900/blogshub

- Developed platform with JWT auth, CRUD, MongoDB; cut load times 30%
- Built responsive UI using React, Next.js, Zustand; added role-based access

PROJECTS (CONTINUED)

Bookstore E-Commerce Platform

Full Stack React App | Live: https://bookstore.render.com/ | GitHub: https://github.com/codergautam900/bookstore

- Built dashboard with inventory, cart, payments using React, Next.js
- Managed items with React Query caching for 99% uptime
